## Cities

### Northern Athens

## Wilniuz

Vilnius Old Town

Everything you wanted to know about Vilnius, but didn't dare to ask...

Vilnius is a famous Nemencine city suburb. Lithuanian shopping and f\*cking mall for all Lithuanian and Lukashenkian peasants. All inhabitants of Lithuanian rural areas have a very old tradition to gather around in the village called Vilnius to practice their favorite traditional sports [Tai-Chi-Chuan](#). Mainly because of the latter Vilnius is also known as permanent traffic jam located around the Castle of Gediminas. Currently ruled by legendary [Vilnius Brigade](#), whose chief of staff is mysterious [Abonentas](#), also known as [Zuoka](#), [Zuokula](#). Zuokula is a protection angel of Vilnius. He protects Vilnius against bad spirits coming mainly from [LNK](#) (successor of [KGB](#)) and personally from [The President of Lithuania](#). in vilnius is living ciacia the famoust dealer of the used socks

Long time inhabited by unknow nationality ppl Poles(sometimes Pshekish), but since WW3, Poles were forced to move back to Poland. But many people decided to stay. Currently they are called the Tooteyshy, which means "shy being here". The city also houses the last known [Pinchiukas](#).

## Klaipėda

Klaipėda: Svyturys Beer factory and Titanic

Probably the biggest sea port in the Baltic Sea. Most famous for being the place where [Titanic](#) started its first journey. Not much more is known about Klaipėda, mostly because it is a military zone and is off-limits to everyone but the highest rank government officials, although some of the people extradited from places like [Panevėžys](#) or [Slabodkė](#) have their villas in [Rybportas](#) and still fish in the Mediterranean Lagoon ( [Kursiu Marios](#) ). Everyone entering Klaipėda's other areas without permission will be tortured and killed. The place that you need to see is Ryphortas, the dark and excellent place for hiding. Other dangerous places: Maxima (a shopping centre, now upgraded into "akropolis"), Mogiliovo g-vė (Mogiliovo Street), and Piene (the milk shop.) "The milk shop" really is a secret underground bunker which is heavily guarded by native drug dealers. Anyone who's spotted near the bunker is captured and taken to the bunker's lowest level, also known as SKIBALE where the prisoners are used for testing of a new drug's or [Dobravolskis](#) torture elements made from metal. Klaipėda is the strongest city in Lithuania. Force people rule the city, but some of the [Banglai](#) resist them. Information available on the internet which is accessed by educational institutions in Klaipėda is controlled (smaller version of the Great China Firewall) by Garshka a.k.a. Rolikas.

## Šiauliai

Above: The Sun Clock of Šiauliai

It's the most important city in [Lithuania](#). Thanks to the [NATO](#) bases it has the fastest growing economy in the region.

In Šiauliai the main clock is created by the sun and is called Sun clock. Bad for citizens that on cloudy days they don't know the time. But they have cool Gubernijos beer.

Above mentioned facts does not exists. please change it because it provides mangfull overview of my town. <There are a lot of nigers. They work for food. National food is kebabas.> The other thing that can be written about Siauliai is that these niggas hate "labasnia" (Lithuanians) so they make all kinds of zapadlo (one of the types of changing a mood of human from good to bad. Usually performed with doors, bananas, arbuzai, kibirai which are thrown at people) to them that's why they usually get severe and some times critical damage from bratva ir hebra. Weapons are: skarbonke, patranka, metla and master sporta of karate.

## **Pabradė**

The biggest refugee camp in Europe. Pabrade in 1950-1993 was one of the biggest tank divisions in the USSR. One of the nicest and calmest places in [Lithuania](#). Also known for jew and nigger killing, and famous for inhabitant [Hanibal Lecter](#). Cock sucking is really proud activity there.

## **Kėdainiai**

Major producer of pickles. Managed and owned by [Agurkich](#).

## **Pornūškės**

Pornūškės is small vilage at south of [Lithuania](#), near [Alytus](#) city. Pornūšės name was made from root "porn" (you all know what it means) and tip "nūškės" which is regulal tip for Lithuanian names. In this vilage lives pornstars from all over the world. Also you can find all ever produced porntapes here. In comparison with Pornūškės [Red light district](#) looks childish...

First of all, everything you know about Lithuania is blues & shoes, including this webpage.

Furthermore, don't even try to try to understand Lithuania without a beer or two resting safely in your stomach (or, preferably, looking for a way out). The local brand [Svyturys](#) is fine for this purpose, "bambalis" (a big plastic bottle of cheap beer) is even better.

Lithuania is located near [Stoneya](#), [Landia](#) and sometimes [Churkey](#) and [Brazauskia](#). The people of Lithuania are currently enjoying the benefits of the [European Union](#) -- in other words, being able to relocate to [Great Britain](#), [Ireland](#), [Spain](#) and other [EU](#) countries like [Uzbekistan](#).

Lithuanians are a tribe at the Geographic Center of [Europe](#) and the future cultural birthplace of Europe (see theory of [Northern Athens](#)). The natives are very peaceful and sometimes drunk, except for the majority which are very drunk and sometimes peaceful.

The natives believe in [basketball](#), a brighter future as [Northern Athens](#) and Degtinė (Vodka) except in the northern parts where they mostly believe in Biržai beer. A touristic paradise all in one.

Please don't fart there, the air is already saturated. Fartmongers will be exgurgicated and reverberated into clunchy brabusters. Oy vey.

Main article: [\*Politics of Lithuania\*](#)

Lithuania is ruled by Abonentas Brazauskinis. To help Abonentas Brazauskinis rule the country, some additional state institutions have been established. As an additional benefit, the institutions make Lithuania look nicely democratic. We could give you more details but we would have to shoot you afterwards.

## History

Contrary to the popular belief there is some. Although it's better to avoid the topic, as after a few "bambalis" Lithuanians are much too much talkative about their history--much too much. If you do get into a history lesson, reach for nearest "bambalis", mix it with nearest bottle of vodka, drink the mixture bottom up and fall unconscious under the table. Trust us, it's better than the alternative.

Well, Lithuania was first mentioned in 1009 by some guy in his writings, but it is known that Lithuania is much more older than that, and in the past it was one of those countries who strike terror into the neiberghous hearts, souls, minds and so on ...(of course, in a good way). So everything began many, many years ago, in the dark forest full of preshistoric beasts. There were a bunch of barbarians gathered around and they decided, "Why not establish a vilage instead of wandering around the forests without any clue what we are doing?" So, the decision was made; all of the barbarians established a vilage and named it "Pyragu Zeme" (Later it was renamed in "Lietuva" (Lithuania) but you will know more about that later). Many years pased since that day. Pyragu Zeme prospered and grew into a small city, with it's own army, goverment, hos, etc. And then came the time than people of that city became greedy. They all sent out their pet monkeys to steal everybodys chickens then lithuania fell into world war 7 and everybody died except two people. Those two people ran off through the wilderness and started a new civilization. Then the monkeys came back and killed everybody. Lithuanians like to live a life of luxury as you can see in the picture of the presidential palace The end.

## Culture

*Main Article:* [Culture of Lithuania](#) The most notable aspect of Lithuanian culture is [politics](#). The ideas of the right to be married to a homosexual against your will, the idea that 1 percent of the richest people are slaves of the other 99 percent and the concept of blood sucking are unquestionable pearls of culture which have been given to the World by the Lithuanian nation.

The least famous Lithuanian writer was [Žemaitė](#) (*Lowerhead* in [English](#)) who wrote such drastic novels like **Marti** (*Robocop* in English) or **For Whom The Bell Tolls** (about the [Žalgiris Battle](#)), however this book is so unpopular that it is now printed on traditional Lithuanian currency (Litas).

In every year Lithuanians have the biggest *Marijuana & Heroin fest* in the Universe. Every year, millions of druggies drive into Vilnius (Lithuania's capital city) to celebrate this amazing fest. Afterwards, a national contest is held to see who can fornicate with the largest number of prostitutes without paying. The winner becomes an honorary member of the Russian mafia.

And the last, but not least: the most popular highlight in Lithuania is the supermarket "Akropolis", situated on the Ozas Hills in Vilnius. All people (most often from the provinces) bring their children to see this warehouse and prefer it to other city objects, such as the Gediminas Love Castle, art museums featuring pictures of Ghallagher cut out of Soviet newspapers, gay bars, etc. Luckily, Lithuania has the second "Akropolis" opened in Klaipėda. Nobody would starve until there is VP Market, called The Great Mother...

## National Anthem

The National Anthem is performed before Lithuanian boxing matches. Shown are the contenders for bantamweight, trans-sexual division. The competitors are Michelle Wesley, on the left; Peri Papaurelis, on the right.

The national [anthem](#) of Lithuania is *Po Stikliuką*. It goes something like this:

*Po stikliuką ir po mažiuką  
Išgerkim mes mieli draugai.  
Ar tu myli, ar nemyli,  
Ar mylėtis negali?*

## Education

[Education](#) is known to Lithuanians. Some are known to have tried it, none have actually liked it. Often, their [video-game addicted children](#) do not attend [school](#) so they are unable to get any education.

According to another [theory](#) (which is bitterly contested by realists), education is compulsory in the country. The person who fails to pass [exams](#) on the third attempt is immediately [deported](#) from the country. For some reason, the Government makes the exams so difficult that none can pass them.

The [Ministry of Education](#) of Lithuania has issued a series of books related to political education. A few examples:

"Being [President](#) for Dummies"  
"National [Elections](#) for Dummies"  
"[Propaganda](#) for Dummies"  
"[Machination](#) for Dummies"

"Credit Card Fraud for Dummies"

"Don't [Delete ACT](#) Scores or [Mess](#) With [APS](#) Scores for [Dummies](#)"

School education programs require passing of three exams for all students from any of the following:

Creating populist political doctrine

[Brainwashing](#)

[Stealing](#) money from the budget

Stealing Spouses

Crying Fiesta

[Dagon](#) look-a-like [contest](#) for [UCSD](#) coeds

## Communications

Unfortunately [Internet](#) connections have not yet been introduced in Lithuania. However the government is about to build the first ever Internet access point in the colony of **New Panevezis (300'000 inhabitants)**, London, SE3.

Meanwhile, the locals are forced to use smoke signals to modulate the incoming signals from the [interweb](#) system. More than 32.6% of the population are occupied in this particular segment of industry; this makes Lithuania the most IT-oriented country in the [World](#).

We also have one telephone company [Telekomas](#). It is very expensive, but very progressive company. At year 1980, 100% of lithuanians had telephones. Now 0.6%. It's mostly old ladies who loves to speak whit each other. [Telekomas](#) just built new branch in Vilnius. They say, it is best in entrie of the world at this time.

## Geography

## Geography of Lithuania

Lithuania is innocent (except for its [female population](#). Innocence comes from within. We are the people. You are poo. Hide your [wallets](#), because Lithuanian [women](#) are [pickpockets](#).

The most popular myth is that Lithuania is located east of California but south of [San Diego](#) (they wish), north of Spain, south of Finland (Estonia is too near to be north of us) and west of Japan (which is true). Lithuania borders the following countries: Latvia to the North, Atlantis to the West, Russia Proper (P-Russia) to the South-West, Poland to the South, China to the East, China to the South-East and China to the North-East and El Cajon to the Mid-South. And don't you argue with us or we'll [vomit](#)! Every other Nia-Nia and Stan-Stan revolves around us like a spider on drugs. Ohhhhhh, yeah, and we hate [The Mamas and Papas](#).

Another story tells that Lit-who-whines-a-lot (nya-nya) is actually a country of nights on shining armadillo country plastered with [jeep](#) talmud and speedy nationals who beat grandmothers. Damn, who could testify to that but [Mayor Golding](#)? Please - go ahead and testify, as we are never a [guardian ad litem](#)!

Many, many centuries and weeks of research have gone by and we have come up with a conclusion that: Litvinia (a.k.a. Litua, Litova, Liettua, Lietusva, Tautieciaistan etc.) is a rocky country with tasty women on the other side of Europeus Plutonicus. Legend goes that the women were imported from Turkey, but their chemistry has been changed forever. That is why [Vilnius](#) is the place to find dark featured women who look like Turkey fat & hairy men. And by the way, another legend tells us (via ancient VCR, DVD and contemporary TVQ\*) that Lithuanian women have been infested (and transvested) by Amorinians from the enigmatic eastern land which is ruled by the mountainous people republic of Amorinia. That is why some (only some) Lithuanian women have a third eye between their tits and three lips. Yes, that is true!

Lit-nia consists of 11 counties, one of which contains a city of high (and not so high) skyscrapers called Knyvius Minimus and is ruled by ancestors of Amorinians that have so plentifully intravened into Lithuania's fragile history (economy and geography too). The abovementioned (and not forgotten) 11 counties consist of at least 1 city, one town and one village as per ruling of our great-great-grand-leader who has passed away into democracy defacing our nation and letting us to disobey our own principles of lust and vitality. Gas stations in Lithonia? Oh come on, Lithuania has no gas stations as such. The only gas chamber we have had had has been closed since WWII when Papa Adolphius Debilicus has been visiting us and our dear nation every single weekend of the day. As for toilets, yes, you may disagree or you may agree that Latvia has more toilets per capita than any other country of the world and beyond it. But Lithuania, all it does is purchase most of Latvian toilets and destroys them. And does so proudly and effectively. That is why Lithuania has the highest decapita per skull per whole nation. Why is the question and the answer is - it just has to be that way.

The population (please do NOT confuse it with strangulation!) of Lithuania is anywhere between a million to a thousand and a half of human-alike semi-aryan semi-philistine people who all know how to be ready, ride and write (and perhaps more, if you beg them). Nationality of our residents, citizens and semi-visitors varies from day to hour. It can be anywhere between the abovementioned thousand to a whopping trillion or more. 85% of those usually are Lithomaniacs (a.k.a. Kazlu-orda) and the rest are Gaijin (a.k.a. Gaidziai) which is believed to be borrowed from a Japanese word "gaijin" for a "foreigner". Which is

true! There are NO Russians and NO Poles (nor parking meters) or others in Lithuania since all have been killed and molested off in the last century or two weeks or so ago. Sorry, but they had to go ... It just had to be that way...but Lithuanian [womenare](#) ripoffs when they saw that no one [grovelled](#). We expect that they will [return](#). :o(

Lithuania (Thoo-Nay is a proposed new name for Lithuania proper) has one forest comprised mainly of Pakistani pine and Belgian bamboo with a very large population of Eurasian monkeys and woo-doo dogs and an increasing population of spida birds that are known to carry nasty diseases like spidoma (closed mouth disease) and phyllisoma (narrow eyes syndrome), but those are being eradicated and will die out soon alright. They have no [teak](#) or [unions](#).

The deepest lake of Lithuania is believed to be Chicken Lake (Vistycio ezeras, which is true and it is believed to produce all the chicken and eggs that the country needs for internal and external use and export to fourth and fifth world. Na, alright.

The tallest (and steepest) mountain on Earth and in Lithuania (Litvanya in Turkish, because TR is already a EU member while LT has left the EU) is Kempines Kalva (Sponge Hill). It is exactly 17 km tall and is made from all the garbage dear Lithuanians have been consuming over decades and millenniums of garbagev rule. The Kempines Kalva (Sponge Hill) is covered with 7 century old asphalt that's been a starting ground for local populace of UFOs. And is a nice attraction for local kids too.

Longest river in Lithuania is Pakistan-Eyerack Canal which is actually an artificial waterway and is about 508 km long. All other waterways have been exhausted, dirtied and asphalted over to make space for new generation of ZUV's which are, as you all know, Zap Utility Vehicles. That is ALL folks! All we knew about geography of Lithuania we have tearlessly decoded onto this pagina virtualis and of course, for you to read and become 100% literacy compliant alright.

TVQ is our 27th century's visionic tech which unzips easily into Travantical Visionic Quesmus - a very very eye-catching super hi-q tech that has been introduced to us (and our minds) recently.

[Varėna](#) (a.k.a. Mushroom Ring) - In that town is the biggest troglodite population, because it has the statue of legion

## Travel and leisure

The country is very beautiful, presents good beer and gorgeous women, native can be recognised by national knitted hats, called "beretes" usually it's elders, one part of young people have bald heads and other, very hairy (50%/50%). There are no middle aged people; all of them are in London.

If you are planing to visit Lithuania, it's a must to visit Šiauliai (I know that you don't know how to say "[Šiauliai](#)". I can't help you. Visit Lithuania and maybe someone will help you.). [Šiauliai](#) is a wonderful town in northern part of Lithuania. It is full of quite beautiful ladies who are very interested in males from West (if you are male but not from the West just try to speak English with some exotic accent - that should do the trick), NATO soldiers and not very [handsome](#) males. If you are in Šiauliai and you are not drunk (that would be a surprise if you are from West because vodka beer and other drinks are CHEAP. NATO soldiers are usually drunk and after that they are mugged and robbed by not so beautiful males), not with ladies and searching for adventures you may try to communicate with that not very nice males I have mentioned before. You may ask how to say [Šiauliai](#). Or (if you are really searching for adventures and want to remember land of cheap beer and beautiful ladies even then you'll be so old that you will not remember your name), well, then you can try to say "lubus guydee" or "utrodi kipe daebeellas" or "choolpk beebie" or "pashol nahooy" to local people. That should work.

## Traditions

Lithuanian women have a long time tradition of losing their virginity during the St. Johns night feast on 23rd of June. Which comes from long time ago feast Rasos, when Vaidilutes (virgin fire keepers) lost they virginity in the bushes! And talking about men for some reason that even scientists cannot explain as soon as they are born they immediately lose their virginity!!! Because the boys fuck eachother in the ass when they are born and Lithuanian [prison guards steal](#) the return addresses of [inmate](#)'s Lithuanian girl friends and [sell](#) them into [slavery](#).

## Music

### Heavy Metal Plough Music

The most popular Traditional Heavy Metal Folk Music band in Lithuania is Juodoji Subata (translated as Black Sabbath where "sabbath" means "saturday"). The leader of Juodoji Subata is Pupu Dede, according to his own lyrics, "lietuviu karo deive" (the [Lithuanian](#) Goddess of War).

Other lyrics of Juodoji Subata describe the favourite Lithuanian weapon of war:

*Kaip dejau is rozanciaus, net kibirkstys paspyle!*

...and also the favourite idol still worshiped in rural areas:

*Vajeeeeezau! Vajeeeeezau!*

## Musicians

### Rytis Cicinas

The one and only but not least hermaphrodite performer in Lithuania, but better switch off the sound before watching him/her move on stage or TV whatsoever.

### Valdas Karklelis

No comments needed. Just visit his [official site](#).

### Suopis and Rambynas Ramonai

A famous Lithuanian professional travelling circus. Their show is an education by itself. After seeing their true professional geeky corny lame-ass [song](#) and dance, you'll never want to laugh at amateurs like [Rytis Cicinas](#) and Valdas Karklelis ever again.

### Edmundas Kucinskas

Freddie Krueger, stepped out of lithianian music producers' nightmares.

### Aivaras Stepukonis

Absolute winner of Eurovision of all times. Gay. Very smart in various jobs: hand job, foot job, and blow job.

## Sexual liberties

How Gay is our Dear Nation Lit-Who-Way-Nya.

### Gays

Our research shows that there are no Gays in Lithuania. When asked about gays they were confused and baffled (which is pretty normal among Lithuanians, due to their lack of a functioning brain). It is safe to assume that everyone in the nation is gay, and it is the norm. To a Lithuanian gay is strait. So if you're a guy and you are planning to visit, tour guides would advise that you carefully coat your anus with cement.

### Lesbians

Our research shows that there are 90% of [lesbians](#) in Lithuania including fishbone aka Arnas. The rest are [homosexuals](#).

### Straight-gender

**OK, folks.** Enough about same-gendered people. Now about straight-hetero-gendered people who (we and me too) are becoming a happy minority in our Dear Nation called Lit-XYU-nia (a.k.a. Twainia). Yes, a happy minority. We, the straight-gendered humans, we are a gay-unfriendly minority (and unfriends of lesgay government) of Lit-Who-Gay-Nya. We depend

on income from our dear gaysbian community. We must obey us and them altogether we pray so one day soon there is a fourth powerful group or movement which has a 4th dimension and a third or fourth gender with a 5th sense of humour attached to their so gay-friendly butt, but which is Armenian-sauna-proof. +

## **Traditions**

Lithuanian women have a long time tradition of losing their virginity during the St. Johns night feast on 23rd of June. Which comes from long time ago feast Rasos, when Vaidilutes (virgin fire keepers) lost they virginity in the bushes! And talking about men for some reason that even scientists cannot explain as soon as they are born they immediately lose their virginity!!! Because the boys fuck eachother in the ass when they are born and Lithuanian [prison guards steal](#) the return addresses of [inmate](#)'s Lithuanian girl friends and [sell](#) them into [slavery](#).

## **Separation of Church & State**

In Lithuania there is now a well-established line between Church and the State. Paedophile priests are found everywhere, - some are ignored, some are not, but at [death](#) both are [buried](#) together. Go figure. Some of the priests are not paedophiles, in the same way as some of the politics are not prostitutes. Once a paedophile priest is caught committing a molestation act with an unsuspecting minor, he (or she??) is being educated slightly, which is called "pakabinti ant kiausiniu". Sometimes such a priest is put to a prison and someone a long resident of a prison makes that priest his wife. That is called: "Pavercia kuniga gaidziu". Lithuanians in general are good Muslims and they respect all catholic priests (except the paedophiles who are now forced to carry a badge which says: "I'm a Paedophile Priest". Once a priest wears such a badge, then he (or she?) is allowed to continue his career in a Church. As for State, it is just right here, along sideways with Church, though both Church guys and State gals (sometimes guys as well) sometimes go to a beer restaurant and drink some geras lietuviskas (yucky litho) beer and then start fighting. Yep, that's true. I saw it myself and I drank some (but I wasn't molested by a priest) beer and it was running over my beard and I almost missed it all and it got into my pants and all women in the bar were laughing at me and I was ashamed to be called a piss-in-the-pants.

No information.

## **Space encounter program**

Lithuanians are 4th space exploring country or at least soon will be. Top secret Mars occupation program "Aqwile" started in early 2000 is now almost completed and first launch is planed in August. Modern rocket is equipped with all state-of-the-art technologies including LTV (national television) transmitters for propaganda and commercials, necessary equipment for cosmonaut's basic needs and 3 stage engine system.

## Vytis-01 Hybrid Engine

### Top secret Vytis-01 Hybrid Engine outer space capsule blueprints

This ultra modern Vytis-01 Hybrid Engine Outerspace capsule is designed just few days ago as our intelligence show our worst enemies - Latvians plant to occupy Mars too so every minute is extremely valuable. Capsule contains all necessary equipment for survival and of course some recreational and leisure equipment such as electricity, TV set which engineers got as a present from the government and pirate cable TV (that one we got from mafia in exchange for some commercials on Capsule). Mainly it's financed from 2% tax which is transferred from citizens and inhabitants taxes to NGO (nongovernmental organizations). Vytis-01 Hybrid Engine is not only for travel; it also has some plasma guns (defence - 12 (shiny mirrors to reflect spells) damage 32, mana cost to spell - 19 (mainly collected from solar energy)). Primary tests show that it can reach up to 142 km/h speed but we are working on engine. Beware, this information is top secret so please be so kind and don't pass it to Latvian intelligence and mass media. Well, it's not only that they could use it (their engineers are not as smart as we are) but to prevent panic among civilians. We will pass some Mars to Latvia as we will privatise it. We give you our word. Honestly.

## Illicit drugs

Transshipment point for opiates and other illicit drugs from Southwest Asia, Latin America, and Western Europe to Western Europe and Scandinavia; limited production of methamphetamine and ecstasy; susceptible to money laundering despite changes to banking legislation. Massive consumption of vodka (degtine), gasoline and toothpaste as hallucinogens. [Samagon](#), translated into English means DIY (Do It Yourself), is the most popular drink in Lithuania. It has very old making traditions.

**Blueprints shown to mass media**

## Prostitution & Politics

Lithuanians do not know what [prostitution](#) is. All sexual acts between men and women are being made totally free of charge. Even husbands and wives sleep for free nowadays. What politics have got to do with this? Well, dear Nationals (Tautieciai), you know well, "*politine prostitute* (political prostitute)" is a very well known term in Lithuania, but the only difference - "*politine prostitute*" sleeps for free as well. That is, I'm sorry, a "*Politine Prostitute*" actually PAYS \$\$\$ to its "victim" (stalker, interessant, sex-seeker) and not vice versa.

## Truth about Lithuania and Lithuanians

Lithuania has won the [Most true country of the world 1999](#). Truth about [Lithuanians](#)

In 2005, after the completion of a 25 year double-blind study, Lithuanians were unequivocally able to prove that it was all the Russians fault. This came as no surprise to the Bulgarians, Poles, or the Slovaks who were doing similar studies of their own.
